Description Stronger surface with durability similar to that of natural stone - HI-MACS® stands up to everyday scratches. HI-MACS® is seamless & non-porous without crevices or surface irregularities where harmful bacteria and mold may reside. Built to last a lifetime, HI-MACS® endures its everyday wear and tear with higher resistance to stains, chemical & heat. With proper care and maintenance, HI-MACS® will remain beautiful and durable for many years for your children and grandchildren. This Health Product Declaration covers all product lines in the HI-MACS collection.

The HPD Standard is solely a declaration of product content and direct health hazards associated with exposure to its individual contents. It is not a full assessment of environmental impacts from the life cycle of this product. It is not an assessment of risks associated with actual use of the product. It does not address the potential health impacts of substances used or created during manufacture that do not appear in the final product as residuals, nor substances created during combustion or other degradation processes.

This Health Product Declaration was generated following the requirements of the noted Standard version and is valid for a total of three years after date of issue or three months after a substantive change of product contents occurs. Users should verify that this Health Product Declaration is compliant with the most current version of the HPD Standard. Accuracy of claims made in this Health Product Declaration is the sole responsibility of the listed manufacturer and certifier (if applicable). The HPD Collaborative does not warrant any claim made herein, explicit or implicit. The HPD Standard is an “open standard” developed and managed by the HPD Collaborative, a nonprofit organization.
